Dear Parents

It has always been my policy to absorb general price increases as far as possible.

With the rise in food, transportation and general maintenance of the school, I have to out of necessity, increase the school fees.

The increase will be effective from 01 March 2022.

Once again I draw your attention to the high standard of education and care afforded to your children by our well trained and qualified staff.

I am glad to say that our fees still remain very competitive.
